

PRESS RELEASE

ENROLMENT OF NEW STUDENTS IN THE BACHELOR OF MEDICINE AND BACHELOR OF SURGERY (MBChB) AT CAVENDISH UNIVERSITY ZAMBIA (CUZ)

Cavendish University Zambia (CUZ) is delighted to inform all stakeholders that the Health Professions Council of Zambia (HPCZ) has given approval to CUZ to enrol new students in the Bachelor of Medicine and Bachelor of Surgery programme. This development has been necessitated by the fact that HPCZ is satisfied that the wet laboratories constructed by CUZ meet the requirements as per the set standards.

Following the lifting of the ban on enrolment of new students into the Bachelor of Medicine and Bachelor of Surgery, all prospective students are required to immediately enrol onto the programme through the normal enrolment procedure.

All continuing students in the following programmes are eligible to register until 29 March 2019.

- (i) Bachelor of Medicine and Bachelor of Surgery (MBChB)
- (ii) Bachelor of Science in Clinical Science (BScCS)
- (iii) Master of Public Health (MPH)

Classes for new applicants in the aforementioned programmes are scheduled to begin on 2 September 2019.

CUZ is highly appreciative to HPCZ for its professional guidance which has led to major improvements at the CUZ School of Medicine that now include having one of the best medical skills simulation and wet labs in the region.

CUZ is also very grateful to its students, parents, guardians, student-sponsors and other stakeholders for their patience and support during the transformation period.

For any questions and further clarifications, please call [+260976633916](tel:+260976633916) or [+260976614190](tel:+260976614190)

Issued by Dr. Kalombo Mwansa, Vice Chancellor
